BLEED AREA

The bleed area extends out 3mm from the edge of your finished artwork. All images or colours that are required to print to the edge of the document should be extended to avoid the chance of any white lines during the print finishing process.

SAFETY AREA

Avoid putting any text or important information 3mm from the edge of the document or center spread as content placed within this area maybe cut off or obscured with the binding process.

TRIM AREA

This is the finished size of your document. Anything placed outside this area will be trimmed off during the print finishing process.

BINDING AREA

Avoid putting any text or important information within this area as it may be removed during the binding process.
